January 23, 2012

To: Department of Transitional Assistance Staff

From: Stephanie Brown, Assistant Commissioner for Policy, Program and External Relations

Re: SNAP, TAFDC and EAEDC - Verifying Noncitizen Status: SAVE Documentation Updates

Overview

The Department is required to use the federal Systematic Alien Verification for Entitlements (SAVE) program to validate the immigration status of any noncitizen to determine whether the individual meets noncitizen requirements for benefit eligibility purposes. Department policies and procedures require verification of citizenship status prior to issuing benefits.

The U.S. Citizenship and Immigration Services (USCIS) updated the SAVE program document selection screens for validating noncitizen immigration status and provides guidance for increasing the chances of successful initial noncitizen status verification.

Purpose of Memo

This Operations Memo is being issued to:

- remind TAO staff how to obtain passwords to log in to SAVE;
 - remind TAO staff how to verify noncitizen status;
 - provide TAO staff with updated information from USCIS regarding SAVE document selections; and
 - remind TAO staff about the USCIS fact sheet clients can use to correct erroneous status information.

**Logging In to
SAVE**

To log into SAVE and create a new password, TAO staff must:

- click in the User Id field and enter the letters “ma” followed by their Wel Id. For example, if the Wel Id is Welxxa, then the User ID would be mawelxxa;
- call the Help Desk and request a default password. Enter the default password in the Password field and click the Login button. A prompt will be displayed to create a new password;
- click in the Old Password field and enter the Default. Then enter the new password in the next two fields; and
- click the Submit button when finished. The Welcome screen of the SAVE website will be displayed.

Note: Passwords must be changed every 45 days.

**Verifying
Citizenship
through
Verification
Information
System (VIS)**

The SAVE Program’s Verification Information System (VIS) is used to verify the noncitizen’s immigration status, primarily by using the noncitizen’s alien registration number (A number), if available. The case manager should use this website: <https://save.uscis.gov/Web/> to access the U.S. Citizenship and Immigration Services Verification Information System (USCISVIS).

The information received from VIS verifies only the noncitizen’s immigration status. It does not verify eligibility for the particular Department program. The noncitizen immigration status is verified with USCIS data through a primary or additional verification process.

The primary verification process uses the noncitizen’s alien registration number (A number), when available; however other documents, such as an unexpired passport can also be used.

After selecting the noncitizen’s document type, the case manager must enter the A number, if available, without the A prefix, on the USCIS screen for an automated query with VIS. The Initial Verification screen will be displayed.

**Verifying
Citizenship
through
Verification
Information
System (VIS)
(continued)**

The Initial Verification screen will identify the noncitizen's alien registration number, if available, name, date and country of birth, date of entry into the U.S., and the USCIS noncitizen status. A unique verification number that identifies the particular query and a message about whether the noncitizen has employment authorization will be displayed.

The case manager must print the Initial Verification screen, carefully review it and compare the information from the printout with the noncitizen's name and date of birth on the Noncitizen page on BEACON to ensure information accuracy. The printout of the Initial Verification screen must be filed in the case record.

In instances where a record of the noncitizen's status could not be located, a message to Institute Additional Verification will be displayed. When the system response line message is displayed, the case manager must click the Request Additional Verification button. The case manager will then be directed to complete the Enter Additional Verification section, and click on the Submit Additional Verification button.

VIS usually returns a response to a request for additional verification within three working days. Once received, this information must be filed in the case record.

**Document
Selection Screen
Updates**

The chart on the following page compares the old SAVE document selection screen to the updates USCIS made to the screen. Depending on the document selected for the query, different information will require data entry on subsequent VIS screens. Updates are highlighted by the shaded areas of the chart.

Other (Use Document Description)	Other (Select If Document Not Listed)

USCIS advises that by providing both the client's I-94 (Arrival/Departure Record) number and his/her current unexpired passport number, the chance of a successful initial verification is increased. However, providing an I-94 number is optional.

To explain this option, a message entitled, Travelers Without the I-94, was added to the I-94 help screen confirming that some foreign travelers are not given an I-94 number by U.S. Customs and Border Protection (CBP). CBP stamps those passports with the noncitizen's specified Class of Admission and the period of time the individual is permitted to stay.

- When a client provides an Unexpired Foreign Passport **with an I-94**, select the "I-94 (Arrival/Departure Record) in Unexpired Foreign Passport" document selection type.
- When a client provides an Unexpired Foreign Passport **without an I-94**, select the "Unexpired Foreign Passport" document selection type.

Additionally, the WB/WT (business waiver or tourist waiver status) document selection type, previously its own selection type, is now found in the "Unexpired Foreign Passport" document selection type. Select the "Unexpired Foreign Passport" document selection type when the noncitizen's passport contains the WB/WT Admission Stamp.

**Document
Selection Screen
Updates
(continued)**

Case managers will be prompted to enter the Student and Exchange Visitor Information System (SEVIS) number for the Unexpired Foreign Passport document type if the SAVE database returns a Student classification for the client. The case manager must ask the client to provide his/her SEVIS number. If the client does not know his/her number, give the client a Verification Checklist (VC-1) to request the number from the school or program the client is attending. Allow 10 days for the client to provide the verification.

When a document provided by a client does not appear on the SAVE document selection screen, select the Other (Select If Document Not Listed) document selection type. The Other document selection type description has been updated; however, the data search capabilities and functionality of this screen remain the same.

Reminder: Remember to request the most current immigration document from the client.

**Third Step
Verification
Process –
G-845S Form**

In some rare instances, a third verification may need to take place before the citizenship status can be validated. When the message displayed under Additional Verification Results requires the resubmission of verification documents, click the Resubmit Verification button:

- print and fill out Section A of the USCIS Document Verification Request form G-845S;
 - attach to the G-845S a clear, legible copy of the front and reverse sides of the documentation submitted by the noncitizen as proof of noncitizen status;
 - file a copy of the G-845S in the case record;
 - send the G-845S and the copies to USCIS:
U.S. Citizenship and Immigration Services (USCIS)
10 Fountain Plaza, 3rd Floor Buffalo, NY 14202 Attn: Immigration Status Verification Unit (USCIS has 20 days to respond)
 - enter on the BEACON Narrative tab that the G-845S form was sent to USCIS including the date it was sent; and
-

**Third Step
Verification
Process –
G-845S Form**

- once received, review the response from USCIS indicating:
 - ✓ a valid noncitizen status,
 - ✓ further USCIS search is warranted, or
 - ✓ the documents appear to be invalid.

This information must be filed in the case record.

Important: If USCIS does not return a response within 20 days, case managers must resubmit the information.

Before any action is taken to terminate assistance due to invalid documentation, the case manager and supervisor must carefully review the documents, requesting further documentation from the noncitizen if necessary. USCIS may have determined the documentation provided is invalid because of the expiration date but the noncitizen may remain eligible for assistance.
