From the Commissioner

Dear Fellow Employees,
Commissioner's Corner being finalized.

From the Hotline

- Q.** Last week, a mother came into our office with her daughter and applied for food stamp benefits. She and her child have Legal Permanent Resident (LPR) status but both have been in the United States for only 18 months. Are they eligible for food stamp benefits?
- A.** Since the mother has been in this country less than five years, she may not be eligible for the Food Stamp Program unless she meets one of the other eligibility criteria in 106 CMR 362.220(B)(7). However, the daughter is eligible for food stamp benefits as a noncitizen child under 18 years of age.

Note: In the TAFDC

Program, this LPR child under 18 years of age who has been in the country less than five years is still considered an ineligible noncitizen. Refer to 106 CMR 203.675(A)(2) for more details.

- Q.** Besides children, can other types of LPRs become food stamp eligible, even

during the school year and \$250 a week in the summer. Neither the husband nor the wife worked at the school during the summer months. Since there was self-employment income reported, the household should not have been on semiannual reporting. This income caused a large overissuance.

What's an AU Manager to Do?

The AU Manager must review each AU to determine the correct reporting requirement the household is subject to, based on income and circumstances. Since this household had self-employment income, the income should have been considered at the time of the recertification. If there were outstanding issues about the self-employment income, the AU Manager should have questioned the AP and requested additional verification as needed. Based on food stamp regulations at 106 CMR 366.110(C), an AU that receives self-employment income is not subject to semiannual reporting.

Shelter

A disabled AP was on both EAEDC and food stamps as a change reporter. At the time of the last recertification (dated 2/25/2005), the BEACON application showed that he paid \$50 per month for rent. The AU was recertified using the \$50 monthly amount. A completed Shared Housing Verification Form was received in the office on March 16, 2005. It showed that the AP paid \$50 **a week** for rent. A previous certification with the same living arrangement listed the rent as \$50 monthly but there was no other recent rental verification in the AU record. When QC contacted the primary tenant to verify the AP's rental amount, she verified that he had been paying \$50 a week since the last recertification. This caused an underissuance error.

What's an AU Manager to Do?

The AP may have misinformed the AU Manager at the time of the recertification about the amount of rent he paid. The AU Manager should have requested additional verification. In this case, that is exactly what the AU Manager did. Unfortunately, the AU was certified on BEACON before the verification was received. Furthermore, when the verification was received in March, the AU Manager should have responded by changing the shelter amount.

Duplicate Food Stamp Issuance

Recently, FS benefits were issued to an FS AU with the father as the head of household.

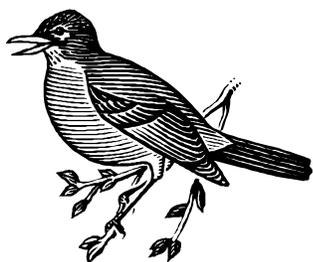

Four days after the monthly FS benefit was issued, the father suddenly left the home, taking the EBT card with him. The mother applied for FS benefits the next day, and a new AU was established for her and the children. The mother and children were closed out of the father's AU, and an overpayment claim was entered on BEACON. Although the AU Manager conscientiously followed through and established an overpayment claim on the father's AU, the mother's AU was later selected in a QC sample and determined to be in error due to duplicate issuance.

What's an AU Manager to Do?

Establishing an overpayment claim was the correct thing to do; unfortunately, this did not eliminate or reduce the error. Food Stamp policy at 106 CMR 362.100 outlines the general rule against duplicate issuances, and 106 CMR 365.550(C) explains that battered women and their children can be an exception to this rule. In this situation, the applicant never claimed to be battered.

The task of assessing the household circumstances and weighing what is in the best interest of the family versus the risk of error is indeed difficult. When faced with similar situations, AU Managers are advised to seek guidance from TAO Management on how to proceed.

Error reminder: An AU was recently reviewed and determined to be an error of \$242. After the QC reviewer realized that the AU was under BSI fraud investigation, the AU was withdrawn from the sample and therefore did not have to be counted as an error. If you have information showing that an AU may be fraudulent, make sure a BSI referral is completed on that AU.

2006 Social Security/SSI COLA Correction

All
Field Operations Memo 2006-2A

Field Operations Memo 2006-2, *2006 Social Security/SSI COLA Update for TAFDC, EA, EAEDC and the Food Stamp Program*, provided TAO staff with information and instructions about the Social Security/SSI COLA Update.

This Field Operations memo transmits a change to an incorrect date on pages 3 and 4 of Field Operations Memo 2006-2.

Requests for Family Shelter: Level Two and Three Sex Offenders

EA
Field Operations Memo 2006-9

Given the increased focus on registered sex offenders living in Massachusetts communities and the safety threat that such persons might pose in a family shelter, effective immediately, TAO staff will be required to determine if any member in the EA AU age 10 and older is listed as a sex offender with the Sex Offender Registry Board (SORB). Placement of the family will not be delayed while awaiting information from SORB. The EA AU member can self-declare or the TAO SORB Liaison can request information from the *Sex Offender Registry Board*.

The Housing & Homeless Services (H&HS) unit needs this information to ensure the appropriate placement of the family in one of their shelters. If, after placement, a family shelter or TAO staff

person discovers that one of the EA AU members is a level 2 or level 3 sex offender, the shelter staff or TAO staff must immediately fax the information to H&HS for review of the current placement and possible transfer of the EA AU.

Food Stamp AUs Closed/Denied in Error

FS
Field Operations Memo
2006-10

The Department determined that there are 89 AUs whose FS benefits were closed or denied in error because of incorrect monthly net income limits in BEACON. These AUs were calculated using the old net income limits (i.e., standards in place before the last FS COLA, effective September 23, 2005). The monthly net income parameters have since been updated in BEACON.

This memo issues procedures for:

- reopening affected AUs listed on the ***Report of AUs Closed or Denied in Error***;
- issuing Related Benefits for the period representing the erroneous closing or denial; and
- sending out the ***Notice to Households Closed or Denied in Error*** to AUs

that remain closed prior to the issuance of this memo or the *Notice to Ongoing Households Closed or Denied in Error* to AUs that were reopened before the issuance of this memo.

ESP – Supported Work: Post-Employment Services

TAFDC

Virtual Gateway/ Consumer Face Food Stamp Application

New Initiative Memo

This memo transmits information about the introduction of a consumer version of the Virtual Gateway Food Stamp Application. Launched on March 4, 2006, the application allows residents of the Fall River area to apply for FS benefits on the Internet without the help of a provider agency. The Department plans to work closely with Fall River TAO staff to evaluate the results of this project before expanding it beyond the Fall River area.
